## Skills

Python | Java | HTML/CSS |

Jupyter Notebooks | Figma |

Microsoft Office | Google Suite

## CODING PROJECTS

- **GoodReads Dupe** (HTML/CSS, Figma)
  - Designed mock landing pages of a homepage, the books I've read, the books I want to read, and the books I am currently reading
- **Skate Club** (HTML/CSS, Javascript, Figma)
  - Designed a website in hopes to share a community! The goal was to highlight the club, how to join, and the amazing moments/people involved.
- **The Numbers behind the Books** (Python)
  - Implemented matplotlib, dictionaries, and csv files to create my own data visualizations based on the books I've read between 2022 and 2023

## INTERNSHIPS

**Start Lighthouse, New York, NY**

Oct 2023 - present

Intern

- Contributing to various projects aimed at enhancing the accessibility of books for children, gaining insights into the intricacies of running a successful non-profit organization.
- Engaging in comprehensive learning experiences regarding non-profit operations, including project management, fundraising, and organizational success metrics.

## LEADERSHIP/RESEARCH

**Rock Climbing Club, NYU Buenos Aires**

Aug 2022 – Dec 2022

President

- Founded and developed the first rock climbing club for 50 students at NYUBA
- Executed strategic plans to facilitate engaging climbing events for groups of <20 students weekly
- Established inclusivity by creating a safe environment for beginner rock climbers to be challenged

**Dean's Circle Honors Program, NYU Liberal Studies**

Aug 2021 – May 2022

Undergraduate Researcher

- Led 2 discussion sessions on corresponding journal articles for 24 college students to examine politics, physical/ideological borders, cultural values to understand what fosters immobility
- Investigated how anthropogenic climate changes forces mobility/immobility in rural areas to urban areas of Turkey through case studies and peer-reviewed journal articles - focused on Turkey's agricultural economy, droughts, over-agglomeration in the cities, and the labor market
